

The background is a dark blue gradient with a subtle pattern of white dots. Overlaid on the left side are several concentric circles and a large circular scale with numerical markings from 140 to 260. Some circles have arrows indicating a clockwise direction.

PRÉSENTATION GÉNÉRALE

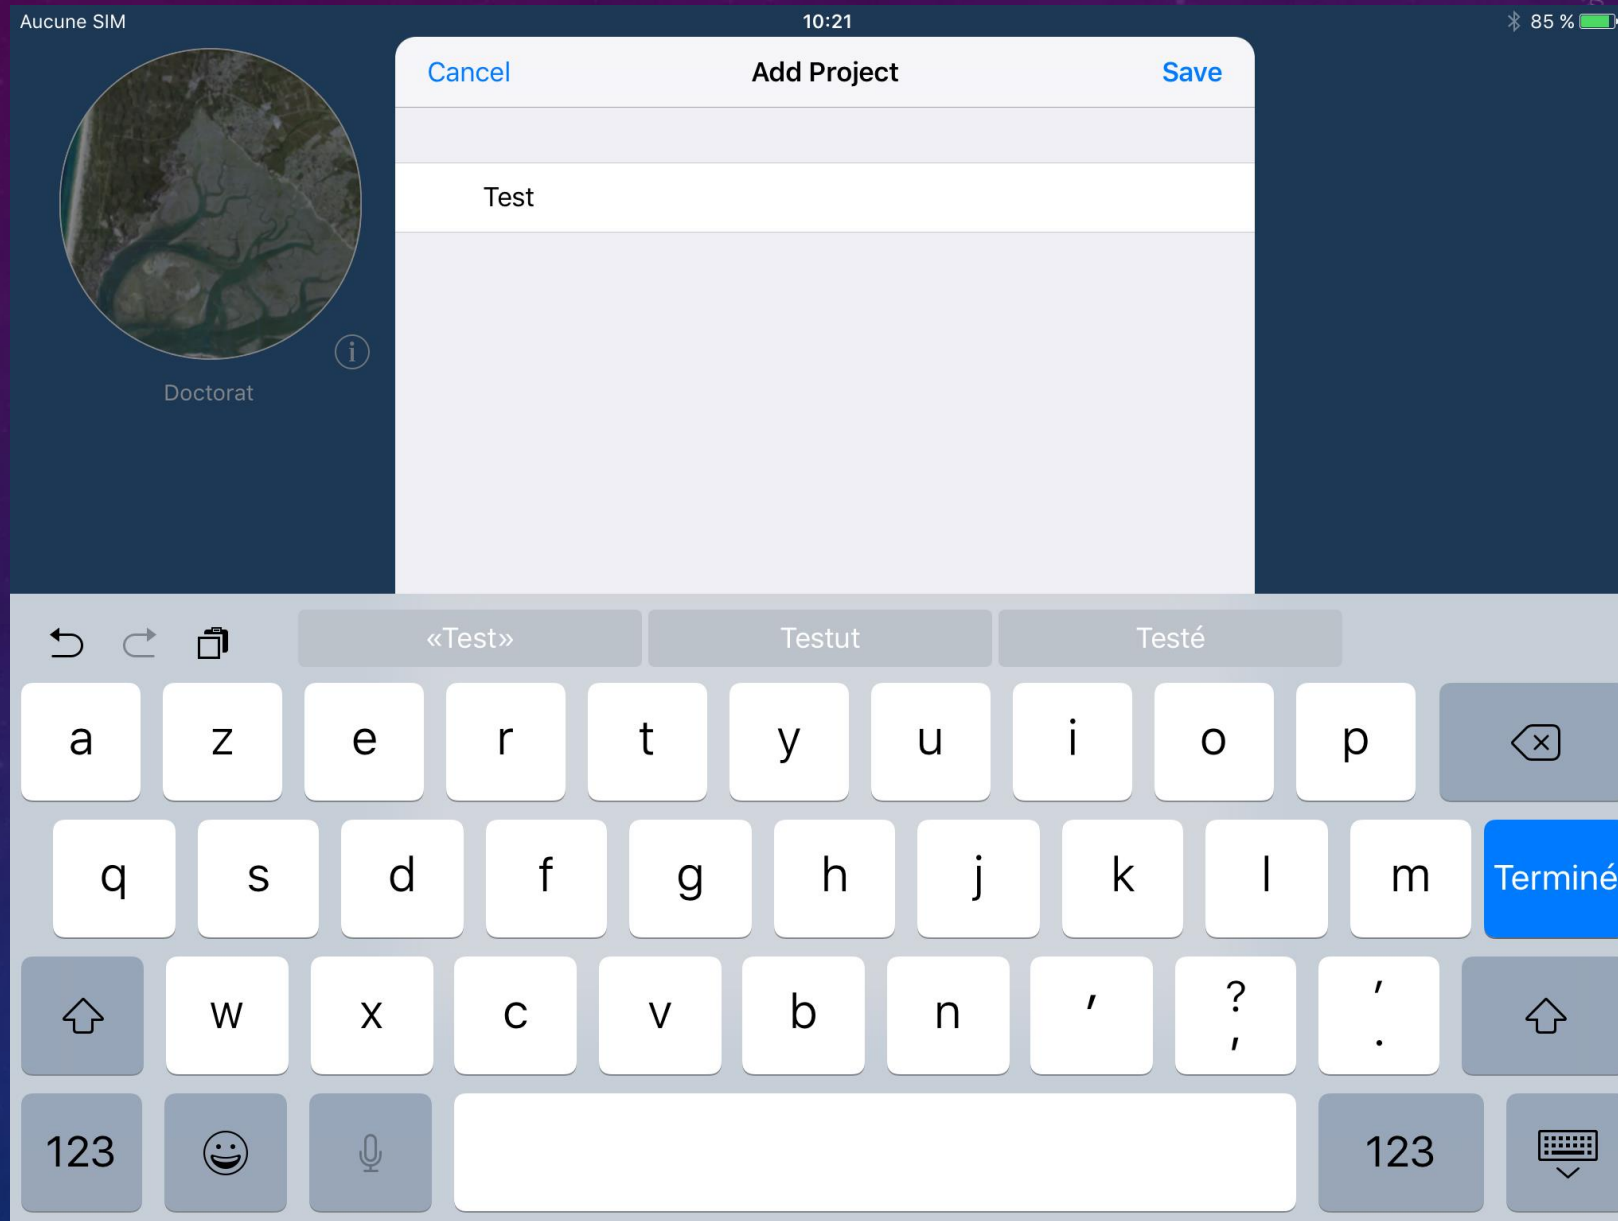

INTÉRÊTS DE L'APPLICATION

- Saisir des données sur le terrain (points, lignes, surfaces)
- Importer et exporter des Shapefiles (arcgis qgis)
- Création en local d'une géodatabase SQLITE
- Gestion des données vectorielles et raster avec possibilités de symbologies (avec champs RGB)
- Précision dépendante de votre Device

The figure is a satellite map of the Île d'Oléron region in France. A red line traces a path along the western and southern coasts of the island, starting from the Phare de Chassiron in the northwest, passing through Saint-Denis-d'Oléron, La Brée-Ménival, Saint-Georges-d'Oléron, Saint-Pierre-d'Oléron, Dolus-d'Oléron, Le Château-d'Oléron, Grand Village Plage, and ending near Saint-Trojan-les-Bains. A blue line connects three points: a red dot on the western coast, a blue dot in the middle of the island, and a red dot on the eastern coast. The map includes labels for various locations such as Fort Boyard, Ile d'Aix, Saint-Nazaire-sur-Charente, and Rochefort. A scale bar at the bottom left indicates 0, 2, 4, and 6 km. The bottom of the image displays the text '22.3914 km' and '379103, 6545005'.

22.3914 km 379103, 6545005
